## **DETAILED ACTION**

### ***Election/Restrictions***

1) This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species 1: Figures 1-3,

Species 2: Figure 4,

Species 3: Figure 5,

Species 4: Figure 6,

Species 5: Figure 7.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3683

2) The claims are deemed to correspond to the species listed above in the following manner as best understood by the examiner:

Species 1: Claims 1-7, 9

Species 2: Claims 1-10

Species 3: Claims 1-2, 4, 6-7

Species 4: Claims 1-4, 6, 9, and 11

Species 5: Claims 1-4, 6, 9, and 11

The following claim(s) are generic: 1-4 and 6.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The preceding species contain patentably distinct aspects.

3) A telephone call was made to MacMillan, Sobanski and Todd on April 15, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4) Any inquiry concerning this communication or earlier communications from the examiner should be directed to Devon C Kramer whose telephone number is 703-305-0839. The examiner can normally be reached on Mon-Fri 8-4.
